

Frequently Asked Questions:

- 1) What is the maximum size?
 - a. 18' W x 12' H
- 2) How much space does it take up in the opening once it is open?
 - a. 21". For example, a 12' H door will give you 10'-3" of clearance, or "walk-through space."
- 3) What is the ratio of the top panel to the door?
 - a. It can be 24-34% of the door opening height
- 4) Can it be installed into curtain wall?
 - a. Yes, so long as the curtain wall can support the loads imposed; depending on the size of the door, the curtain wall mullion may need to be internally reinforced
- 5) What finishes are available?
 - a. Our aluminum system means you can paint in Kynar, Mica II Pearlescent, Three-Coat Tri-X Metallic, or 100% Fluoropolymer Powder Coat. Also available anodized.
- 6) What are the electrical requirements?
 - a. Our motor is 115 V, Single-Phase, and pulls less than 15 amps. All wires are low-voltage
- 7) How long does it take to install?
 - a. You can usually get one door up in one day, including glazing or cladding.
